### Pointers

1. Try to avoid text being split by the joins wherever possible.
2. When placing photoshop images make sure they are around 400dpi when being placed into this document at 100%.
3. Note that the endcaps curve around to the back of the stand, and it is not advisable to put any important text in the non visible area. (non visible from front view)
4. If placing Illustrator or Freehand eps files place make sure all text is converted to outline.
5. Please supply a laser proof if possible.
6. We accept artwork created from most Mac programs including: Quark, Illustrator, Freehand, In-Design or Print Optimised PDFs.
